

Saskatchewan Consumer Price Index

March 2015

According to Statistics Canada, the Saskatchewan All-items Consumer Price Index increased 0.9 percent between February 2015 and March 2015 while the Canada All-items Index advanced 0.7 percent. The Regina and Saskatoon All-items Consumer Price Index rose 1.0 percent and 0.8 percent, respectively, during the same period.

In Saskatchewan, the March All-items Index increased from February 2015 primarily due to higher prices for purchase and leasing of passenger vehicles, gasoline, women's clothing and men's clothing. Prices also increased for children's clothing, dairy products and purchase and operation of recreational vehicles.

Moderating these increases were lower prices for travel tours, inter-city transportation, non-alcoholic beverages and fresh fruit. Prices also declined for non-prescription medicines, bakery products and fresh vegetables.

The Saskatchewan All-items Consumer Price Index advanced 1.4 percent between March 2014 and March 2015 while the Canada All-items Index increased 1.2 percent. The Regina and Saskatoon All-items Consumer Price Index climbed 1.3 percent and 1.6 percent, respectively, during the same period.

The March All-items Index increased from March 2014 primarily due to higher prices for purchase and leasing of passenger vehicles, natural gas, passenger vehicle insurance premiums and water. Prices also increased for rent, food purchased from restaurants and travel tours.

These increases were partially offset by lower prices for gasoline, fuel oil and other fuels, footwear and home entertainment equipment, parts and services. Prices also decreased for non-alcoholic beverages, homeowners' replacement cost and coffee and tea.
